

Capability Statement

SAFE TRAFFIC MANAGEMENT (STM)

Safety-Governed Traffic Management & Compliance Specialists

Owned and operated by experienced safety and compliance professionals

SAFETY-LED OPERATIONS

Safe Traffic Management delivers safety-governed traffic management across South East Queensland and Northern NSW, supporting government, infrastructure, civil, maintenance, and construction works through trained personnel, compliant systems, and operational accountability.

Our approach combines qualified traffic crews, structured WHS systems, digital reporting, and real-time compliance visibility to reduce risk and support audit-ready project delivery.
